[Vertebrates: Comparative Anatomy, Function, Evolution ...](#)

Hands down the best vertebrate anatomy book out there. I have heard people say that Kardong's writing is dense and confusing but this is the perfect level for a college student. As long as you understand biology/ biological writing you should be fine with this book. There is a newer edition out of this book and some of the writing was cleared up, because Kardong hired an editor for the new version. 9780077657055: Comparative Vertebrate Anatomy: A ...

This high-quality laboratory manual may accompany any comparative anatomy text, but correlates directly to Kardong's Vertebrates: Comparative Anatomy, Function, Evolution text. This lab manual carefully guides students through dissections and is richly illustrated. First and foremost, the basic
