Food and climate change | Sustain

In the EU, over 30% of the greenhouse gases from consumer purchases come from the food and drink sector. Latest conservative estimates from the Food Climate Research Network in the UK suggest that almost one-fifth of the UK's total greenhouse gas emissions are associated with our food and drink (download 260Kb ppt).

Denmark discusses labelling food for climate impact - CNN

The Danish government began discussing proposals Tuesday to oblige food manufacturers and supermarkets to put labels on their products that would rate their impact on the environment and climate.

Food and Climate Change - Food Production - Food System ...

As a result of climate change, many regions that already suffer from high rates of hunger and food insecurity are predicted to experience the greatest declines in food production. 7.9 In drought-stricken regions like Kenya (pictured), many cattle farmers have already lost their animals, their livelihoods, and their sources of food and income.

Home | Food Climate Research Network (FCRN)

The Food Climate Research Network (FCRN) conducts, synthesises, and communicates research on food sustainability. We inform and connect stakeholders with a common interest in building sustainable food systems.

FAO'S WORK ON CLIMATE CHANGE - Home | Food and ...

FAO'S WORK ON CLIMATE CHANGE. FOR THE WORLD'S POOR, ADAPTING TO CLIMATE CHANGE AND ENSURING FOOD SECURITY GO HAND IN HAND. 4

The Food and Agriculture Organization of the United Nations (FAO) estimates that almost 800 million people in the world today are chronically hungry. By 2050, population growth and dietary changes will drive food needs up by 60 percent. Climate change is already

Climate Change Impacts on Global Food Security | Science

The whole food system needs to adjust to climate change, with strong attention also to trade, stocks, and to nutrition and social policy options. We need to work toward what could be termed a climate-smart food system that addresses climate change impacts on all dimensions of food security.

Climate change: Which vegan milk is best? - BBC News

The popularity of vegan foods continues to grow, with

January seen as a traditional time to consider giving them a try. Milk alternatives, such as oat, soy, almond or coconut, are one area of

Climate change and agriculture - Wikipedia

Climate change and agriculture are interrelated processes, both of which take place on a global scale. Climate change affects agriculture in a number of ways, including through changes in average temperatures, rainfall, and climate extremes (e.g., heat waves); changes in pests and diseases; changes in atmospheric carbon dioxide and
