Its main goal, however, is to disseminate the information  
about biodiversity conservation problems in the Himalayan  
region among the people in the developed world. The book  
can serve as a good source of reference or even as a  
textbook for both graduate and undergraduate students in  
conservation biology and mountain ecology.

Mountain Research and Development A knowledge gap of  
this kind is particularly severe in remote mountainous  
regions of the Himalaya where high species richness is  
combined with intricate topography and inaccessibility,  
which means that species assemblages of some groups and  
from some regions still remain relatively unexplored.
