PHARMACOLOGICAL APPROACHES TO THE TREATMENT OF BRAIN AND ...

Pharmacological approaches to the treatment of brain and spinal cord injury. "Based on the Second Luxembourg Conference on Recovery from Brain and Spinal Cord Injury, held July 7 -11, 1986, in Walferdange, Luxembourg" - T.

Pharmacological Approaches to the Treatment of Brain and ...

Although no one can become inured to the victims of brain or spinal cord injuries, one reason that insufficient time and effort have been devoted to research on recovery is that it is a generally held medical belief that nervous system injuries are simply not amenable to treatment. At best, current therapies are aimed at providing symptomatic relief or focus on re-habilitative measures and

A Review of Spasticity Treatments: Pharmacological and ...

Spasticity is a velocity-dependent increase in muscle tone and uncontrolled, repetitive, involuntary contractions of skeletal muscles. Spasticity presents as upper motor neuron symptoms in patients with central nervous system pathology such as stroke, spinal cord injury, brain injury, or multiple sclerosis.

Therapeutic approaches for spinal cord injury

This study reviews the literature concerning possible therapeutic approaches for spinal cord injury. Spinal cord injury is a disabling and irreversible condition that has high economic and social costs. There are both primary and secondary mechanisms of damage to the spinal cord. The primary lesion
