This companion volume to Selected References in Orthopaedic Trauma chooses from the mass of good, bad and awful literature papers, mainly but not exclusively from accessible books and journals, that are worth reading. Strongly recommended for the surgical trainee who seeks ready access to the literature.

But these few have been selected with discretion and studied with care. Each group of references is followed by a critical assessment, written with balanced judgment and commendable brevity, and how refreshing it is to find authors who read much but write little. In fact, these authors have followed the pattern of the sister work, Selected References in Orthopaedic Trauma, published in 1989.

References, to the reader, are like insulin to the diabetic: when needed they are indispensable, but in excess they induce coma. Moreover, when references are simply shovelled into a text in great gobbets, it is hard to resist the suspicion that the author has not read them all, but has copied some.
