Institutional economics - Wikipedia

Underlying his ideas, consolidated in Institutional Economics (1934) was the concept that the economy is a web of relationships between people with diverging interests. There are monopolies, large corporations, labour disputes and fluctuating business cycles. They do however have an interest in resolving these disputes.

Institutionalist Economics | Exploring Economics

Regarding interdisciplinarity, the focus on power relations that is also very often theorized in institutional economics is further expanded and exclusively focused on by political science (and international studies such as international relations/international political economy; cf. Cox 1981 for example). While some Institutionalists have emphasized the role of conflict and dominance in the
