## The Veins of the Posterior Fossa - Normal and Pathologic ...

It is a privilege and pleasure to write a foreword to this work. Who, twenty years ago, would have thought that a whole book could be devoted to the veins of the posterior fossa? Even today the standard text-books of anatomy only give a paragraph to the subject. Thanks to the dedicated work of

Veins Posterior Fossa | neuroangio.org

Basal vein light blue; Interpeduncular (posterior communicating) veins orange; anterior pontomesencephalic vein pink; next to the basilar artery (red); the pontomesencephalic vein drains into the petrosal vein (yellow) and then into the inferior petrosal sinus (white). The deep sylvian (middle cerebral) veins are green, and atrial veins are black.

Microsurgical anatomy of the veins of the posterior fossa.

The veins of the brain stem are named on the basis of whether they drain the midbrain, pons, or medulla. The veins of the posterior fossa terminate as bridging veins, which collect into three groups: a galenic group which drains into the vein of Galen; a petrosal group which drains into the petrosal sinuses; and a tentorial group which drains into the tentorial sinuses near the torcula.

## THE VEINS OF THE POSTERIOR CRANIAL FOSSA: AN ANGIOGRAPHIC ...

The anastomosis of anterior pontomesencephalic vein (crossed arrows) with the basal vein is also well evident. VOL. 150, No. 1 The Veins of the Posterior Cranial Fossa 47
