The building combines a majestic architecture with the latest in new conference facilities and technologies and thus provided a very suitable setting for a workshop aimed at bringing the Arts and the Sciences together. of the workshop was to promote inter-disciplinary awareness across The main aim a range of disciplines where visual representations and interpretations are exploited [Visual Representations and Interpretations - Springer](#) Visual representations and interpretations were related to questions about the nature of knowledge in general. The importance of prototypes in defining conceptual categories was emphasised. Both contributions stimulated intense debate and played an important part in promoting an atmosphere of inquiry at the workshop. VI Indeed, the workshop was intensive with much animated discussion over
